SUBJECT

{ GENERAL Operations,
SPECIFIC

25X1

25X1

1. Mission Number 6011 was flown 2 March 1958, local time.

2. Due to the fact that the failed soon after it was turned on all route deviations were plotted from KWGLITTER report at debriefing. The KWGLITTER stated that he was not 100% sure that he was on track from point I to J and J to K. However he did not think that he was more than 3-5 miles off either side.

25X1

3. He found many more airfields along his entire route than he was briefed on, but could not say if they had any aircraft parked on them. Also many of the towns appeared larger than represented on the WAC and JN maps that he had with him.

4. Two copies of the overlays are included herein, 1 copy for Headquarters use and 1 copy for HTAUTOMAT.

25X1

5. The clocks in the show local time and not Zebra time.
